

Technique Time!

We heard you and have come up with **Technique Time!**

Every month we will have time set aside to demonstrate different techniques. The first one starts in January of 2022 and (drumroll here) it will be on blocking!!!! I'm sure I'm hearing cheers out there...

Blocking is one of the most transformative processes in knitting. During the first wash, a knitted garment will undergo a profound change — the fibers will plump up and even out your stitches and will cohere into a beautifully even and sturdy fabric. Thus, your project is never truly finished until it's been blocked; and once blocked, it will never again be the same as it was when you first bound off.

Here we'll outline and then demonstrate our preferred blocking process in hopes of helping you make the most of your knitting and help you end with a polished finished object.

I know by now you are shouting WHEN Tina WHEN????

January 15, 2022 from 11 – 12 noon. See you there!
